COMMENTS FROM THE TOWN MANAGER'S OFFICE

At the regular meeting of the Board of Selectmen held Wednesday night, June 6, the selectmen voted unanimously to make the no parking restriction permanent on the south side of Main Street, commencing at the driveway between Brooks Bros. store and the Methodist Church and extending easterly to the property of Gary York. This ordinance will be enforced and the violators will be fined. The tickets are being prepared and when they are ready they will be used. Most people have been obeying the temporary restriction. Everyone will have to respect the restricted parking or be prepared to pay the consequences.

A little more explanation on the Mechanic Street reconstruction might be in order. Last week I stated that we have about three days work left to do. The water company has to put some new water connections in so they won't have to tear up the new construction after it is completed. The street will probably be in rough shape for another month but we hope the finished job will justify the inconvenience.

The hours for voting in the primary election will be 10 a. m. until 7 p. m. These are the same hours as the town has had in the past.

WRECKED CARS AT GILEAD FRIDAY EVENING

Broken Wheel Derails Dozen Cars at Gilead

Twelve cars of a 46-car west bound Canadian National freight train were derailed and jackknifed about 5 o'clock Friday afternoon at Gilead village. The wreck was located just west of the easterly switch of the passing siding and covered both tracks, but traffic was resumed at five miles per hour over the siding at about 10:30 Saturday forenoon.

Cause of the wreck was reported to be a broken wheel on the second car of the train, which was drawn by a three diesel unit. It was estimated that more than 9,000 ties were damaged by the dragging wheel over a distance of two miles from a point east of the old Peabody place, the red house, on Route 2.

The wrecked cars included a load of lumber picked up at Bethel and others carrying china clay and paper. Some 300 feet of the main line in the Gilead yard was torn up. Damage to tracks and rolling stock was estimated to be more than \$50,000. Work of repairing the track damage is now going on.

Through the week end the wreckage and work of repair attracted crowds of passersby as the tracks parallel the heavily traveled Route 2 at this point. (Other pictures, page 4.)

Instructor Billy Reynolds (turning front wheel) and Shell dealers check out a car at one of Shell's 123 training centers.

Shell instructor Billy Reynolds offers 10 clues that may help you spot trouble before it starts

Billy Reynolds

OVER 12,000 Shell dealers go to Shell training centers every year. There, they learn how to spot trouble quickly.

Here are 10 trouble signals that Billy Reynolds, one of Shell's chief instructors, always stresses. If you notice any of them in your car, tell your Shell dealer. His advice might head off a big repair bill later on.

1. Mushy brakes. When your car is standing still, push the brake pedal down with a firm, steady pressure. If it feels soft and sinks to the floor, you've got trouble that should be fixed right away.

2. Wandering wheels. If your front tires show more wear on one side of the tread than the other, your wheel alignment is probably at fault. Out-of-line wheels can increase tire wear up to 50 percent.

3. Jiggly front end. Shove down hard on either bumper with your foot. If the car bobs up and down for a long time before coming to a rest, ask your Shell dealer to check your shock absorbers.

4. Decrepit tail pipe. If your muffler or tail pipe is rusted through in spots, it's a good idea to replace it.

5. "Bloated" radiator hoses. Inspect all

of the rubber hoses that interconnect your cooling system. If they're cracked or swollen, they can fail at any time and cause your engine to overheat.

6. Marred windshield. If your windshield is scarred or streaked, it's probably due to faulty windshield wipers. Have your Shell dealer check and replace them if necessary.

7. Strange noises. Listen for any odd noises from your car. They can be warnings of trouble on the way.

8. Under-the-hood clues. You can learn a lot by looking at your engine. Watch for oil, fuel and water leaks. Also, loose wires and worn insulation.

9. Sluggish battery. If your engine turns over more slowly than usual when you start up, a weak battery is probably the trouble. But it could be something else. Better check it.

10. Oil-streaked sidewalls. Check the sides of your tires you seldom see—the sides facing in. Look for signs of leaking fluid on the tire walls. Could be a leaking brake cylinder, or faulty oil seals on the rear wheels. Both can be serious.

Any trained Shell dealer knows many trouble signals besides these. Take advantage of his training. And one last tip: when you've got your car in top condition,

keep it filled with today's Super Shell—for top performance all year long.

Super Shell's 9 ingredients for top performance

TCP®—for power, mileage and longer plug life.

Pentane mix—for fast warm-ups.

Anti-knock mix—for resistance to knocks.

Cracked gasoline—for power.

Anti-icer—added in cold weather to help check carburetor icing stalls.

SODIUM FLUORIDE SCHEDULE ANNOUNCED

The sodium fluoride application program will begin Tuesday, June 19, at 1:00 p. m. at the Bethel Primary School hot lunch room. This program to aid in reduction of dental cavities is conducted by the Division of Dental Health of the State of Maine Department of Health and Welfare. Locally, it is sponsored by the Bethel Health and Service Council, Inc., the Bethel Parent-Teacher Association, and the Newry School Committee, as well as by a general gift from the Salvation Army to benefit the whole area.

Mrs. Samuel Timberlake, chairman of volunteer service for this project, wishes to call attention of parents to these particulars:

I. The program is to include:
a. Children of the local schools, grades 2, 5, 8, whose parents submitted signed requests for this treatment.

b. Children who are between ages 30 and 48 months, or who have already requested this treatment. There are a few vacancies in this group.

II. Each children must visit the hygienist four times. At the first visit the child will be examined, receive a thorough cleaning of his teeth, and the first application of sodium fluoride will be made.

III. The child will go for the first visit by an appointment which should be received in the mail by Saturday of this week. It is sincerely hoped that parents will make every effort to keep this first appointment.

SKILLINGTON

— Mrs. Ola Tift, Corres. —

promptly since the schedule has been made as carefully as possible to allow forming car pools, etc.

SCHOOL NEWS

The first Bethel Driver Training Class will be held at CPS Tuesday, June 19, at 9 a. m. Instructor for the course will be Carleton Barnes, principal, Pembroke High School, Pembroke, Maine.

Bennett's Garage has again agreed to furnish the driver training car.

BETHEL RED CROSS SWIMMING INSTRUCTION

The Red Cross Swimming Classes will start at Songo Pond June 25. The schedule will be given in the Citizen next week.

One matter of importance for all parents of the Bethel area who will have children enrolled, please note:

Because of a legislative regulation regarding buses, whereby buses used for hire or other charter purposes, other than school transportation, must come under the regulations of Public Utilities, this means a special license to operate as such, and it adds to the cost of insurance, over and above the cost when buses are used for school transportation.

The appropriation voted in Town Meeting will not fully cover the transportation costs of the swimming program. The Red Cross Committee, therefore wishes to inform all parents that we will have to continue as usual to assess each family the \$1.00 seasonal transportation fee as in times past. By doing so, we should be able to carry out the transportation schedule without indebtedness.

ton, N. H., attended the graduation of Mrs. Charlton's granddaughter, Sharon York, from Gould Academy, Sunday.

Mr. and Mrs. Stanley Carter were in Orono the past week end for U. of M. Alumni Day activities. The preceding week end they were in Hanover, N. H., to see a friend who is seriously ill in the Mary Hitchcock Hospital.

Phillip C. Faudi son of Mr. and Mrs. Phillip H. Faudi, will graduate from Deering High School, June 15th. He has attained the Honor Roll, during his four years in Deering, was recently elected to the National Honor Society, and was one of nine seniors presented an engraved trophy for excellence in math, given by the Maine Teachers Assn. This awards presentation took place May 25 on the Colby College campus, Waterville. Phillip was a speaker at the Baccalaureate, Sunday, June 10th, at Deering. He will enter Atlantic Union College, at Lancaster, Mass., in the fall, majoring in theology, and minoring in business administration.

One of the most hollow victories a man can win is to be right in a traffic accident. Regardless of who is at fault, everyone concerned loses in an accident. The Maine Highway Safety Committee advises: "Don't be reluctant to yield the right of way if necessary—even though the other fellow may be wrong."

Be strong and of good courage, be not afraid nor dismayed... with us is Jehovah our God to help us.

It is good to remind ourselves of the strength that is ours, by affirming: "I am strong with the strength of God." As we hold to this we find that we feel stronger and healthier all the time.
